SUMMARY

Software Engineer with experience in Java Full Stack Development, skilled in developing robust backend systems and responsive web applications. Seeking to contribute technical expertise and grow within a progressive organization.

EXPERIENCE

SOFTWARE ENGINEER

GTechnohubb Pvt. Ltd. | MARCH 2025 – PRESENT

PROJECT 1 – MEDICAL MANAGEMENT APPLICATION (SPRING BOOT)

- Worked on a Spring Boot-based medical application following MVC architecture.
- Developed Model and View components using JSP.
- Validated and cross-checked data between Model, View, and Controller layers.
- Identified and added missing fields in forms and backend models.
- Implemented default values in model classes to maintain data consistency.
- Verified Controller mappings and ensured proper request handling.
- Performed manual testing and prepared testing reports.

PROJECT 2 – ASSISTED SERVICE APPLICATION (SPRING BOOT)

- Developed an end-to-end module using Spring Boot.
- Implemented complete CRUD operations for the assisted model.
- Conducted research on competitor websites to understand features and requirements.
- Designed and updated model classes and database structure.

EDUCATION

SDM Institute of Engineering and Technology, Ujire (Computer Science Engineering)

- Completed a 4-year undergraduate program with a CGPA of 6.73/10 (2019 – 2023)

Akshara PU Science College, Shikaripura

- Completed a pre-university program with a score of 64.5% (2017 – 2019)

Akshara English Medium School, Shikaripura.

- Completed a high school education program with a score of 75.34% (2017)

SKILLS

Java -> Basics of Java, Core Java, Exception Handling, Collections, Jsp, Service, Controller.

SQL (Database) -> DDL, DQL, DML, DCL.

Cyber security

Github

CERTIFICATIONS

- Java Developer by - Destination Technologies, Bengaluru, Karnataka.
- Fundamentals of Database(SQL) by Simplilearn
- Introduction to cyber security by Simplilearn.

TOOLS

1. **Eclipse IDE** – Java development and project management
2. **Spring Tool Suite (STS)** – Spring Boot application development
3. **MySQL** – Database management and query writing
4. **Visual Studio Code** – Frontend development (HTML, CSS, JavaScript)

PROJECTS

➤ **Metro Management System(DBMS)**

- Metro Management System: A web development project.
- In this users can choose a starting point and destination point so that user can come to know the next train time.
- All user data is securely stored in a database(SQL) for effective management.

➤ **Pest Control Service Web Application (Built using Spring Boot – STS)**

1)Pest Control Service Web Application:

Developed a full-stack web application using Spring Boot in Spring Tool Suite (STS) for managing and booking pest control services online.

2) Admin Module:

- Admin can add, update, and delete pest types (e.g., Termites, Rodents, Cockroaches).
- Manage service price, description, and service area details.
- All added pest services are dynamically displayed on the main page for users.

3) User Module:

- Users can view available pest control services on the homepage.
- Fill out a service request form by selecting pest type and affected area (e.g., home, office, garden).
- Choose their location to get service availability and estimated pricing.

Technology Stack:

- IDE: Spring Tool Suite (STS)
- Backend: Spring Boot, Spring MVC, Spring Data JPA
- Frontend: HTML, CSS, Thymeleaf/JSP
- Database: MySQL
- Build Tool: Maven

PARTICIPATIONS:

- I participated in the Red Cross activities at SDMIT College.
- I participated in the cultural activities at SDMIT College.

SOFT SKILLS:

- Good communication skills and listening skills.
- Team player and good decision-making skills.
- Good, positive, and confident interactions with people.
- Passion for constant growth and improvement.
- Quick and adaptable learner, with a strong ability to grasp new concepts and skills rapidly.

I hereby declare that the above-mentioned information is correct up to my knowledge and I bear the responsibility for the correctness of the particulars mentioned above.
